THIS IS A REQUEST FOR WAIVER OF USAC'S 60 DAY WINDOW TO FILE AN APPEAL

Andy Schwartz, Appellant

Chesterfield County Library, BEN #127235, Applicant

Sandhill Telephone Cooperative, SPIN #143002920, Service Provider

471 Application #1012694, FRN #2748648

Due to a clerical error, I used the wrong figures when I calculated the Applicant's monthly pre-discount cost of the service for FRN #2748648. The Applicant receives SPI credits on their monthly bills and I used the discounted portion of the bill to calculate the monthly cost instead of the non-discounted portion. Exhibit A & B clearly shows the actual bill with the discounted figures marked in **black** and the SPI credits marked in **blue**.

The discounted bills total \$92.35 per month

The SPI credits total \$378.00 per month

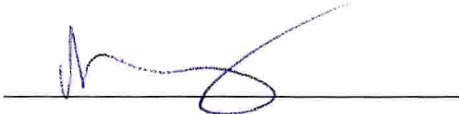

The actual pre-discount cost of the service is \$470.35 per month, not \$92.35 as indicated in the Application.

I never received any PIA questions for FRN #2788648 and therefore didn't have a chance to correct the clerical error before the FCDL was issued.

The reason this appeal is being submitted outside of the 60 day window is because I was moving across the country and had extremely limited computer & email access. Between Monday June 22, 2015 and Tuesday July 21, 2015, I was unable to work because I was traveling.

I am requesting that USAC issue a COMAD commitment adjustment to increase the monthly pre-discount portion of the service for FRN #2748648 to \$470.35 to bring funding in-line with the actual service provider bills.

Sincerely,

Andy Schwartz
